Word wipe free online mind games

Simple Mind Games is a fun little collection of brain teasing that tests your memory and problem-solving skills. It offers 8 mini games: Spelling, Flash, Shapes, Math, Order, Reaction, Recall and Match. In each game, you have 1 minute to test your abilities. If you receive more questions in a row, you will earn more time. The number of questions you need to get right and the time earned depends on what game you play. Spelling the game, you will be given 4 words, three of which are written incorrectly. You must touch all misspelled words. The flash game flashes the number on the screen and you need to enter it when it disappears. Shapes give you 4 shapes at a time. Each shape is colored and has a shape name underneath it. You must select a shape with the correct name associated with it. The math game shows you incomplete equations and it's your job to choose a number that should take instead of a question mark. Don't forget the line of operations! You must rank the numbers in the order. You start with only 4 numbers, but it pre-8 digits. In the reaction game, you are given a 4x4 grid of light blue circles. If one of the circles turns green, you need to touch it. Watch out, sometimes they turn red. Do not touch red lights! Recall is a memory game in which 4 or 8 digits flash on the screen. Then you will be given a number and you will need to tap the box that held this number. It's quite simple with just 4 numbers, but rather tricky 8 numbers. In the game of game, you just have to say the weather shape displayed is the same shape as the previous shape that was on the screen. Don't forget, just because color changes don't mean it's not the same shape! Simple Mind Games is a free download and includes Spelling, Flash and Shapes. The remaining games can be purchased for in-app purchases for \$1.99. Good Nice, pure design Simple but complicated You can play one game in 1-2 minutes with a bad No graph or something to see your past scores and if there's been an improvement on the bottom line of Simple Mind Games there is a big small collection of games that are sure to use your brain. Most games can be enjoyed by children and adults. The hardest game for me is Recall, what is yours? We can earn a commission on purchases using our links.
